

Project: Wolverhampton Interchange
Status: In Delivery
Area: St Peter's, Wolverhampton

Black Country *LEP*

An Overview

This project will provide a fully integrated multi modal transport hub, deliver new commercial floor space for high value jobs and improve the strategic gateway to Wolverhampton and the Black Country. A new state of the art railway station building will be constructed and the existing multi storey car park refurbished and extended. Once the works have been completed on the new station building it will pave the way for the Midland Metro Alliance to begin the final link to the new City Centre tram extension.

The project will deliver benefits that are considered to be a significant stimulus for growth and investment in Wolverhampton and the wider economy. It supports the continued development of the strategic employment sites such as i54 and J2 sites, as well as the City Centre and enhances their potential for job growth and widening the catchment area for the jobs market through improved access from a wider geographical area.

Key Stats

- Total Investment Value: £81.77million
- Grant: £17.0million
- 5631.45sqm of Commercial Floorspace
- 219 New Jobs
- 111 Jobs Safeguarded

The Outcomes

Through Growth Deal Funding, this project will:

- Improve and facilitate an effective public transport interchange in Wolverhampton across a range of modes providing an improved quality of connections to a variety of destinations and connections to HS2.
- Significantly increase passenger capacity.
- Provide scope and opportunities for future growth and expansion of the region's transport system and to enhance Wolverhampton's role as a hub to connect other parts of the Black Country region and link to HS2.

The project will deliver benefits that are considered to be a significant stimulus for growth and investment in Wolverhampton and the wider economy. It supports the continued development of the strategic employment sites such as i54 and J2 sites, as well as the City Centre and enhances their potential for job growth and widening the catchment area for the jobs market through improved access from a wider geographical area.
